How can words be Life?

Greetings! The Bible is often looked upon as rather dull and out of date. This however could not be further from the truth. Those who find it dull are probably those who have had it presented to them in the wrong way. If it is read by way of 'Spiritual Interpretation' it will be found to be a superb user manual for life. It is a practical guidebook of thrilling interest containing explanations and guidance for every situation: relationships, marriage, religious difficulties, healing of mind and body, problems of poverty and money management, home, work and business worries are all dealt with in the Bible. All our human problems and issues are in there and have been experienced by someone else in antiquity; why make the same mistakes and why reinvent the wheel. We may not initially like the answer the Bible gives us, but it will surely lead us to safety.

Jesus said, "The sayings that I speak to you are spirit and they are life' (John 6:63).

Why not try it out: pick out a Bible passage and ask the Lord to illuminate it for you.
