Hi Everyone

May is upon us and once again we have the glorious bluebells all around us, the azaleas have started to come into bud and promise to be a mass of beautiful colours. The Beech tree which we have had to have some surgery on is quickly coming into leaf and doesn't seem to be suffering too much from its "trim". This month we are again doing the "Castles in the Air" week-end which proved to be a very enjoyable week-end last November so if you would like to join that group for a week-end of spiritual in-sights, music and good food it's time to book in. The last week-end in May the house will be full to capacity when we welcome back our young families for a week-end of fun and friendship. Best wishes to you all love Anne.

### Everything Changes

Greetings!

There are many prophets and seers ancient and modern who are adamant that the world is relentlessly moving towards a new Golden Age. For me *personally*, what would signify the approach of that age would be an increase in: openness, two way communication in freedom and rationality as opposed to someone dictating, belief in an afterlife, charitable or loving attitudes leading to good works, and a belief that there is at least a Loving and Wise Universal Mind behind Life. Mankind's journey continues, and on journeys, things change. Even the best of us are steeped in attitudes and habits that have rubbed off on us in some way from a less Golden past. The structures, forms, practices and buildings of our beliefs, religions, governmental styles and social norms are constantly mutating. I hope that the purpose of this is to form new vessels capable of a higher quality nurturing of Love and Understanding as it flows out from the Source of Life into people.

*"... no one pours new wine into old wineskins. If he does, the wine will burst the skins, and both the wine and the wineskins will be ruined. No, he pours new wine into new wineskins."*

*(Jesus: Mark 2:22)*
